

“ VISION

To connect people, communities & businesses in successful partnerships with care & transparency helping them manage their moments of impact and paving the way for society to thrive in the emerging connected digital economy.

”

Technical And Practical Expertise

Award winning project management office consisting of trained and qualified engineers, quantity surveyors and procurement team

Supply Side Strength

We practice agile procurement methodologies, through secured links with suppliers

Regional Teams

Trained and competent civil, electrical and maintenance teams placed in strategic locations

Cost Optimized And Value Engineered Solutions

Compliance

We follow a stringent Environmental and Health and Safety(EHS) standard and Quality Assurance and Quality Check (QAQC) policy.

Experience

We benefit from a dynamic and highly experienced resource pool, ranging from Engineering to IT and telecom to Finance. We engineer solutions to unforeseen problems

Our Services

Tower
Infrastructure

Technical
Installations

Solar
Infrastructure

Civil
Infrastructure

Tower Infrastructure

- Site Acquisition and Survey
- Tower and support structure fabrication
- Tower construction
- Tower maintenance
- Other civil works (Eg. Meter cubicle, Fence, Road development)

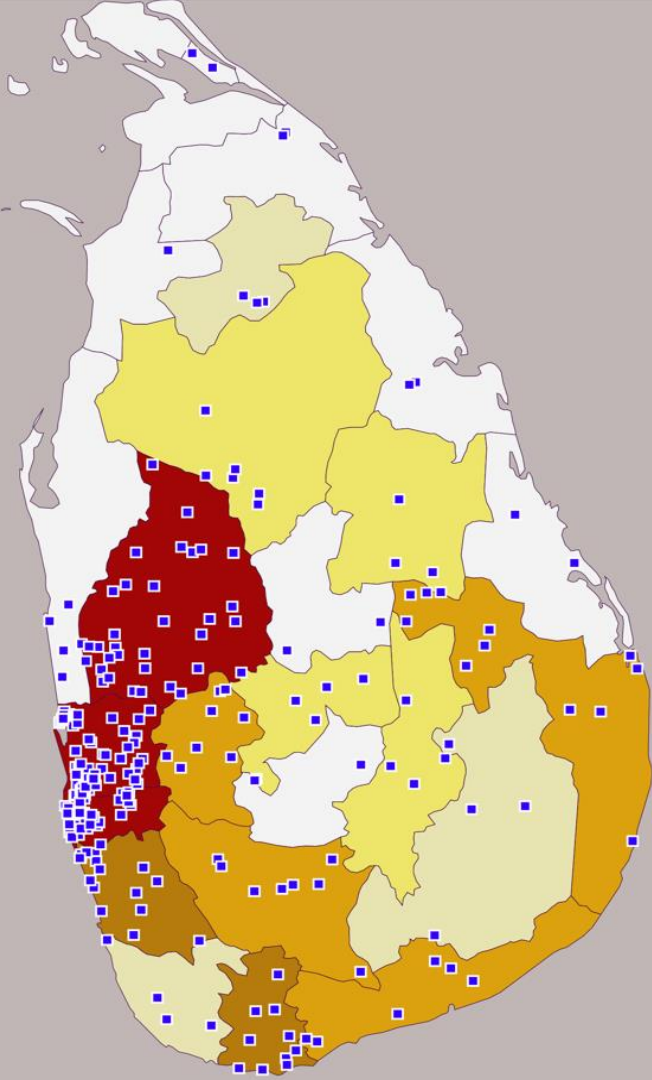

Tower Infrastructure

- Completed more than 170 Civil Sites in the last 24 months to develop country digital infrastructure.
- Collaborated with Huawei/Ericsson/EdotCo in the recent past with sustainable partnership in the global arena.
- Successfully completed 200+ TI (Antenna scope) in the last 24 months.

Main Districts of Operation

Kurunegala | Gampaha |
Anuradhapura | Puttalam |
Kilinochchi

Technical Installations

- Radio Frequency Planning and Optimization
- Fiber laying and Infrastructure
- Microwave Installation
- Street Lamp and Smart Pole Installations
- Wireless Antenna Installation
- Low Voltage Installation

Solar Infrastructure

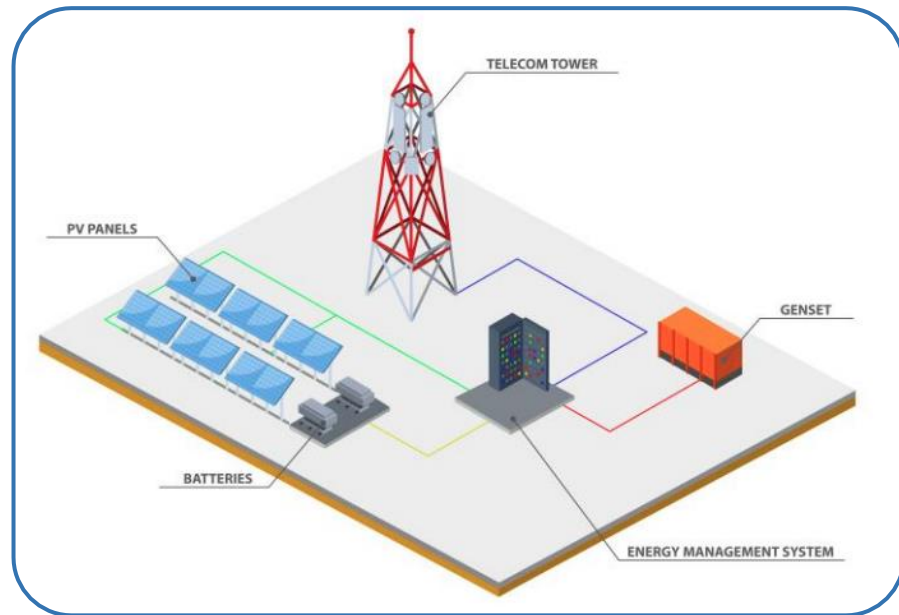

- Solar PV Energy systems design and installation
- Control systems and switchyard design and commissioning
- Plant asset management and remote monitoring systems
